Profiles

🌐 Mirxa Rafay

🌐 Muhammad Rafay Saeed

Summary

Associate Software Engineer & Frontend Developer with expertise in JavaScript, React, Next.js, and Tailwind CSS. Experienced in creating intuitive, high-performance web interfaces that combine modern design with robust functionality. Skilled in problem-solving, responsive design, and delivering scalable solutions. Committed to driving innovation, improving user satisfaction. Passionate about continuous learning, modern technologies, and contributing to innovative projects that create real-world impact.

Experience

Edify College of IT

Intern 4th Floor, College of IT Building, Susan Road, Faisalabad

🔗 <https://edifycit.com/>

- Contributed to the development of **responsive and user-friendly web applications** using **HTML, CSS, JavaScript, React, Next.js, and Tailwind CSS**.
- Collaborated with senior developers to design and implement **scalable frontend solutions** aligned with modern UI/UX principles.
- Built and optimized projects including:
 - To-Do List App** – a CRUD-based task management application with interactive UI.
 - Weather App** – developed with React and Tailwind CSS, featuring real-time API integration and system-based dark/light mode.
 - E-commerce Multi-Vendor Marketplace (Aura)** – contributed to frontend development, ensuring responsive layouts, smooth navigation, and performance optimization.
- Improved skills in **responsive design, performance optimization, and clean code practices** while working in an agile, collaborative environment.

Vsolutions

Intern P - 33 Euro Plaza Madina Town, Faisalabad

🔗 <https://www.volutions.com.pk/>

- Developed multiple **responsive websites** using **HTML, CSS, JavaScript, and Bootstrap**, ensuring modern design and cross-device compatibility.
- Created projects including a **Restaurant Website, Travel Website, and Clothing Store**, focusing on clean layouts and user-friendly navigation.
- Strengthened skills in **UI/UX design, responsive frameworks, and collaborative development** in a professional environment.

Education

NFC Institute of Engineering & Fertilizer Research, Faisalabad

Computer Science Bachelor's

3.4

🔗 <https://www.iefr.edu.pk/>

- Gained a strong foundation in **programming, databases, object-oriented programming (OOP), and data structures & algorithms (DSA)**.
- Completed coursework and projects focused on **software development, problem-solving, and efficient coding practices**.
- Built practical skills that support expertise in **frontend development, performance optimization, and scalable application design**.

Projects

My ToDoList

This is Basic responsive todolist which can perform CRUD operations

🔗 <https://todo-note-app.vercel.app/>

Weather - App

A modern weather application built with Next.js and styled using Tailwind CSS.

It provides real-time weather updates with a sleek, responsive UI and supports system-based dark and light modes for a smooth user experience.

🔗 <https://sigma-weather-app.vercel.app/>

AURA Ecommerce Platform

AURA is a sleek multi-vendor e-commerce marketplace, enabling users to explore, compare, and shop across various brands with ease.

This project highlights Muhammad Rafay's skill in creating user-friendly, high-functionality websites.
